Specification

The abstract of the disclosure is objected to because the abstract has more than one paragraph. Correction is required. See MPEP § 608.01(b).

An amendment of the specification to delete any paragraph describing drawings is needed since this application does not have drawings.

A substitute specification filed under 37 CFR 1.125(a) must only contain subject matter from the original specification and any previously entered amendment under 37 CFR 1.121. If the substitute specification contains additional subject matter not of record, the substitute specification must be filed under 37 CFR 1.125(b) and (c)

Allowable Subject Matter

Claims 24-40 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose a process of recovering DCPD from a hydrocarbon feedstock, as called for in claim 24, using two separation columns in fluid connection together. Each of them is equipped with overhead and bottom reboilers, condensers. Each of them has a specific number of theoretical trays. Each of components of the system is operated at specific temperature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
